"CONCRETE & CONSTRUCTIONAL ENGINEERING"

VOL. LI *FIFTY-FIRST YEAR OF PUBLICATION* 1956

CONCRETE PUBLICATIONS, LTD., 14 DARTMOUTH STREET, LONDON, S.W.1.

INDEX

PAGE

Abbreviations 283
Aggregate in prestressed concrete, Expanded-shale .. 409
" Tests of expanded-shale 534
Aggregates, British Standard for 350
" Fineness modulus and grading of .. 313
Air-ducts at a power station, Precast 277
Airfields, Runways at 584
Airport, New building at London 302
Ancient monument, Moving an 396
Arch of 32 ft. span, Glass-and-concrete 527
" of uniform thickness, Analysis of a parabolic, by V. A. Morgan 335
Ash, Aggregate made from pulverised-fuel, by W. Kinniburgh 571
" in a Scottish dam, Pulverised-fuel 437
Asphalt surfaces on concrete bases 478
Austria, Development of concrete in, by Friedrich Baravalle 115

AUTHORS :

Arup, O. N., C.B.E., on Cost of multiple-story buildings 517
Baker, A. L. L., on Ultimate-load method of design 293
Baravalle, Friedrich, on The development of concrete in Austria 115
Bartlett, R. J., on Bending and axial stresses in hollow circular columns, 537; Design of tee-beams and ell-beams 399
Bogue, R. H., on Reminiscences on cement research 249
Bölcskey, E., on V-shaped frames for supporting bridges 463
Budgen, W. E. J., on Cost of multiple-story buildings 543
Chronowicz, A., on Design of non-prismatic beams 359
Dobbie, C. H., and R. L. Wajda on Joints in precast frames 345
Freyssinet, E., on The development of concrete in France 7
Gaafar, Ibrahim, on Design of prismatic roofs 509
Haas, A. M., on The development of concrete in the Netherlands 171
Hingorani, N. V., on Stresses in chimneys due to temperature 425
Kelopuu, Beato, on The development of concrete in Finland 141
Kinniburgh, W., on Pulverised-fuel ash aggregate 571
Lossier, Henry, on The development of concrete in France 13
Lyle, E. S. E., on Analysis of gable frames by the column-analogy method, 389; on Analysis of frames with non-prismatic members .. 563
Mees, L. A. Alting, on Bending moments at the supports of continuous beams 483
Minetti, Hans, on The development of concrete in Germany 47
Morgan, V. A., on Analysis of a frame with three bays, 451; on Analysis of a parabolic arch of uniform thickness, 335; on Analysis of frames with two gables 265
Müller, L. S., on General formulæ for maximum bending moments 439
Olszak, W., and S. Kajfasz on The development of concrete in Poland 101
Paez, A., on The development of concrete in Spain 181
Plum, Niels Munk, on The development of concrete in Denmark 123
Riessauw, F. R., on The development of concrete in Belgium 231
Rinaldi, Giuseppe, on The development of concrete in Italy 211
Rohfors, Holger, on The development of concrete in Sweden 157
Roš M., on The development of concrete in Switzerland 195
Savona, J. S., on The design of tee-beams.. 433
Steinberg, Herbert E., on The development of concrete in Great Britain 31

AUTHORS (*contd.*) : PAGE

Széchy, Ch., on The development of concrete in Hungary 85
Teixeira-Rego, A., on The development of concrete in Portugal 241
Turkin, V., on The development of concrete in the U.S.S.R. 149
Wentworth-Sheilds, F. E., O.B.E., on The development of concrete in Great Britain 25
White, J. W., on Design of column foundations and rigid rafts 373
Whitney, Charles S., on The development of concrete in the U.S.A. 35
Żeželj, Branko, on The development of concrete in Yugoslavia 61
Batching and mixing plant, Continuous 288
Beams, Bending moments at the supports of continuous, by L. A. Alting Mees 483
" Design of doubly-reinforced 402
" Design of non-prismatic, by A. Chronowicz .. 359
" Design of tee-, by J. S. Savona 433
" Design of tee- and ell-, by R. J. Bartlett .. 399
" Resistance to shearing 415
" Strength in bending 416
Belgium, Development of concrete in, by F. R. Riessauw 231
Bending moments, General formulæ for maximum, by L. S. Müller 439

BOOK REVIEWS :

Analysis of Structures, by M. Smolira 278
Beton im Seewasser, by A. Hummel and K. Wesche 414
Betong-Proporsjonering, by S. Thaulow 366
Beurteilung der Tragfähigkeit schwerbelasteter Strassen durch den Plattendruckversuch, by P. Siedek and R. Voss 414
Building Technique for Domestic and Similar Structures, by Edwin Gunn 366
Cálculo de Concreto Armado, by T. van Langendonck 334
Cemento Armato Precompresso, by Carlo Cestelli Guidi 494
Chemistry of Cement and Concrete, by F. M. Lea 544
Das Arbeitsverhalten des Rüttelverdichters auf plastisch-elastischem Untergrund, by U. Bathelt 494
Das durch elastische Spanten versteifte, beliebig gelagerte Rohr, by E. Gruber 413
Design and Construction of Engineering Foundations, by F. D. C. Henry 494
Design of Prestressed Concrete Structures, by T. Y. Lin 315
Design of Reinforced Concrete, by B. W. Boguslavsky 544
Handbook of Engineering Materials, by D. F. Miner and J. B. Seastone 334
Luftporenbildende Betonzusatzmittel, by K. Walz and E. Hartmann 366
Manuel du Béton Précontraint, by V. Weinberg 334
Properties of Aluminium and its Alloys 366
Silos: Traité théorique et pratique, by M. and A. Reimbert 544
Sistemi Elastici Piani, by A. Linari.. 414
Stability Functions for Structural Frameworks, by R. K. Livesley and D. B. Chandler 544
Supervision of Civil Engineering Construction, by A. C. Twort 316
Taschenbuch für Bauingenieure, by F. Schleicher 278
Thermal Insulation of Buildings, by G. D. Nash, J. Comrie, and H. F. Broughton 316
Uber die Biegungsmomente der Randtrager von Zreuzweise bewehrten Fahrbahnplatten, by A. Pucher 413
Versuche zur Festigkeit der Biegedruckzone, by H. Rüsch 413
Vorberechnung der Verbundträger, by H. J. Schrader 366
Zehnteilige Einflusslinien für Durchlaufende Träger, by G. Anger 494
Bridge and Structural Engineering, Association for 320
" deck on prestressed planks 482
" decks, Design of.. 502
" Hampshire, Langstone 545

PAGE

Bridges, American research on decks of road .. 284
„ in India, New 548
„ liable to mining subsidence 395
„ Prefabricated arch 320
„ V-shaped frames for supporting, by E. Bölcskey 463
Buttress for an arch roof 504
Cellular concrete, New lightweight 476
Cement research, Reminiscences on, by R. H. Bogue 249
„ Setting and hardening 535
Centering for ribbed floors 446
Chimneys due to temperature, Stresses in, by N. V. Hingorani 425
Churches near Coventry, Concrete 460
Colombia, A stand in 516
Column foundations and rigid rafts, Design of, by J. W. White 373
Columns, Bending and axial stresses in hollow circular, by R. J. Bartlett 537
Concrete, Durability of 323, 351
„ Method of ascertaining the tensile strength of 503
Cooling tower at a power station 367
Cracks in reinforced concrete 287
Dam by the vacuum process, Surfacing a 567
„ Resurfacing a 462
Dams, Contraction joints in 286
„ in Scotland, Construction of 582
Denmark, Development of concrete in, by N. M. Plum 123
Design based on loads causing failure 293, 475, 575
Dewatering soil, Limiting the effects of 473
Dome of 165 ft. diameter, 423; of 290 ft. diameter .. 554
Engineers, The status of 548
Expanded-shale aggregate, Tests of 534
Faber, The late Oscar 387
Failure of a warehouse 344
Finland, Development of concrete in, by B. Kelopuu 141
Fire resistance, By-laws relating to 417
Fitness for purpose 507
Floor, New type of 499
Flooring, A new system of 558
Floors, Centering for ribbed 446
Floor-warming system, Garage with a 322
Footbridge of 230 ft. span, Precast 490
Foundations and rigid rafts, Design of column, by J. W. White 373
Frame structure, Multiple-story precast 275
„ with three bays, Analysis of a, by V. A. Morgan 451
Framed buildings, Composite action in 320
Frames by the column analogy method, Analysis of, by E. S. E. Lyle 389
„ for supporting bridges, V-shaped, by E. Bölcskey 463
„ Joints in precast, by C. H. Dobbie and R. L. Wajda 345
with non-prismatic members, Analysis of, by E. S. E. Lyle 563
„ with two gables, by V. A. Morgan 265
France, Development of concrete in, by E. Freyssinet, 7; by Henry Lossier 13
Germany, Development of concrete in, by Hans Minetti 47
Glass-and-concrete arch of 32 ft. span 527
Great Britain, Development of concrete in, by Hubert Steinberg, 31; by F. E. Wentworth-Sheilds, O.B.E., 25; Some random notes 259
Hungary, Development of concrete in. by Ch. Szécby 85
Initials, The use of designatory 411
Italy, Development of concrete in, by Giuseppe Rinaldi 211
Joints in dams, Contraction 286
„ in precast frames, by C. H. Dobbie and R. L. Wajda 345
„ in roads 315
„ in slabs, Machine for preparing 289
Kilmarnock, Warehouse at 555
Lifting circular slabs 370
"Lift-slab" method 354
Lightweight cellular concrete, New 476
„ concrete 560
Matrix-analysis of successive moment-distribution 320
Mixing plant, Continuous batching and 288

PAGE

Moving a four-story building 471
„ an ancient monument 396
Multiple-story buildings, The cost of, by O. N. Arup, C.B.E., 517; by W. E. Budgen, 543; by Peter Dunican 543
„ precast frame structure 275
Netherlands, Development of concrete in the, by A. M. Haas 171
Poland, Development of concrete in, by W. Olszak and S. Kajfasz 101
Portugal, Development of concrete in, by A. Teixeira-Rego 241
Prismatic roofs, Design of, by Ibrahim Gaafar .. 509
Professional status 357, 469
Rafts, Design of column foundations and rigid, by J. W. White 373
Refractory concrete, Flue built in 353
Reinforcement, Machine for laying mesh 384
Reservoir with walls of novel shape 435
Retaining walls of precast units 352
Road bases, Machine for making soil-cement 319
„ in Nottinghamshire, Experimental 443
Roads in the U.S.A., Motor 557
„ Joints in 515
Roof, Design for a station 364
„ Novel buttress for an arch 504
Roofs, Design of prismatic, by Ibrahim Gaafar .. 509
„ Precast curved 272
Runways at airfields, ... 584
Russia, Precast concrete in 495
Sea, Protection against erosion by the 355
Shale aggregate in prestressed concrete, Expanded- .. 409
Shearing in reinforced concrete beams 415
Shell structures supported on rollers 320
Shrinkage of concrete 475
Silicones, Treatment of concrete with 448
Silo in France, Cement 520
Siphon of Les Granges, Hoop reinforcement in the 320
Sleepers, Fastening rails to concrete 386
Soil-cement road bases, Machine for making 319
„ Limiting the effects of dewatering 473
Spain, Development of concrete in, by A. Paez .. 181
Stadium in the U.S.A. 281
Stand at a football ground 371
„ in Columbia 516
„ in South Africa 397
Standards 263
Stands at Madrid racecourse 521
Status of engineers 548
Subsidence, Bridges liable to mining 395
„ Foundations to resist 491
„ Tower liable to 500
Sweden, Development of concrete in, by Holger Rohfors 137
Switzerland, Development of concrete in, by M. Ros 195
Tank for hydro-dynamic research 407
Tanks, Stresses in cylindrical 320
Technology, Awards in 321
Tensile strength of concrete, New method of ascertaining the 503
Terms, Abstract and relative 449
Tests, Application of the results of 561
Tower liable to subsidence 500
„ Precast fire-drill 289
Tunnel under the river Thames, New 412
Ultimate-load method of design, 479; 573; by A. L. L. Baker 293
Underpinning, A new method of 279
U.S.A., Development of concrete in the, by C. S. Whitney 35
U.S.S.R., Development of concrete in, by V. Turkin 149
„ Technology in the 291
Vacuum concrete process 531
„ process, Surfacing a dam by the 567
Vierendeel girders, Design of 320
Walls of precast units, Retaining 352
Warehouse, Failure of a 344
Wind, Building tilted by the 475, 534
Wynn, The late A. E. 318
Yugoslavia, Development of concrete in, by Branko Zeželj 61

PRESTRESSED CONCRETE

Aggregate, Expanded-shale in prestressed concrete 409
Beams 136 ft. long, Precast 519
Bridge deck on prestressed planks 482
„ in Australia 552
„ in Derbyshire 553
„ over the river Tiber 403
British Standard for wire 322
Dam in Scotland 419
Foundations to resist subsidence 491
Hangar roof, New type of 304
Leonhardt and Loeba systems 325
Quay wall, Reconstruction of a 317
Roads 552
Roof for an engine shed 534
„ New type of hangar 304
Roofs, Platform 273
Russia, Precast concrete in 495
Silos for sugar 309
Southend-on-Sea, Building at 549
Tower, Precast fire-drill 289
